DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 16-22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hilbert et al '133.

The cited prior art is of record in the previous communication, and its disclosures are as discussed therein. Applicant's arguments filed 10/28/04 have been fully considered but they are not persuasive. Applicants take the position that the cited prior art neither discloses, nor suggests the claimed method and, as such, cannot effect the patentability of the claims because it does not disclose the addition of a titanium catalyst compound "to an esterification reaction or ester exchange reaction product in a stage for transportation to a melt polycondensation step". The Examiner does not find Applicants' arguments convincing, and again, attention is directed to Example 4 of the prior art wherein a titanium compound is added to a TPA based PET oligomer followed by heating and polycondensation. It is the Examiner's position that this stage of the prior art process clearly satisfies the requirement of the claims, of the addition of a titanium compound to an esterification reaction or ester exchange reaction product in a stage for transportation to a melt polycondensation step. The PET oligomer is clearly an esterification reaction product. The stage of the polyester preparation between esterification and polycondensation wherein catalyst and other ingredients are added to the intermediate polyester product is part of the final stages of esterification or is likewise, part of the preparation steps for polycondensation. Thus, for example, in a

continuous process, the reaction product from the esterification is transported to the polycondensation step. The preparatory step in between clearly satisfy the requirements of the claims.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **SAMUEL A. ACQUAH** whose telephone number is 571-272-1065. The examiner can normally be reached on M-TH, FRIDAYS OFF.
